MOBILE EVAPORATIVE COOLERS INFORMATION SHEET

MC18M

- Extremely light weight and portable, personal cooling at it's best!
- White and gray coloring to blend in with your surroundings with a convenient carrying handle and casters for when it is filled with water!
- **Adjustable Louvers for directional air flow**
- Cooling Area 500 S.F
- Airflow 1300 CFM
- Water Reservoir 4.8 GALLONS
- Assembled Weight 15 LBS
- Dimensions 20" L x 10" W x 28" H
- Electric Consumption 0.7 A / 85 W

MC37M

- Compact yet POWERFUL! 3 Panels of high density rigid media extremely portable with 4 heavy duty casters! **With oscillation louvers for wide coverage.**
- Cooling Area 950 S.F
- Airflow 3100 CFM
- Water Reservoir 10.3 GALLONS
- Assembled Weight 43 LBS
- Dimensions 24" L x 16" W x 38" H
- Electric Consumption 2.4 A / 250 W

MC61M

- Extremely portable with 4 heavy duty casters, 3 Panels of high density rigid media
- Ideal for large patios and workspaces while being **quiet and efficient**
- Cooling Area 1600 S.F
- Airflow 5300 CFM
- Water Reservoir 14.6 GALLONS
- Assembled Weight 57 LBS
- Dimensions 28" L x 17" W x 45" H
- Electric Consumption 4.3 A / 430 W

MC92V

- Extremely versatile and efficent, with ocsillating louvers that allow the cooling air to reach a large area quietly and efficently **now with a toggle and turn-dial** control to make it easy for you to adjust between the **four temperature** settings to obtain optimal cooling anywhere
- Cooling Area 3000 S.F
- Airflow 11000 CFM
- Water Reservoir 32.8 GALLONS
- Assembled Weight 125 LBS
- Dimensions 46" L x 26" W x 59" H
- Electric Consumption 5.6 A / 460 W
